What is The Red Pill (Overview)

1100010

Redpill/\$Mtrx coin - A community owned frictionless yielding crypto currency, with a passionate team; inspired by a film that defined a generation.

The team understands that trading “meme coins” can be as dangerous as avoiding agents in the Matrix. We aim to develop a strong relationship with our community based on trust and transparency.

To highlight this commitment our lead developer will reveal his identity at 1000 telegram users.

We believe that a cryptocurrency with strong tokenomics, based on films with cultural significance that echo cryptocurrency’s ethos, we can become a force among “meme coins”.

“I’m trying to free your mind, Neo. But I can only show you the door. You’re the one that has to walk through it.”

-Morpheus

Tokenomics

1100010

Token supply of 100,000,000,000,000 ensuring enough \$MTRX was minted to meet future demand as it scales with **50% of the supply burnt**.

5% yield on each transaction is shared between all holders, encourages holding to benefit from the tokens that accumulate from transactions on the blockchain.

5% is added to the liquidity pool with each transaction ensuring the liquidity and reducing the price impact of large transactions as the crypto currency scales in size.

Ownership of the coin is renounced. No further changes to the smart contract can be made, no further tokens can be minted, neither can the code be exploited.

Liquidity pool tokens are burnt, ensuring the project is unruggable, & showing the long term commitment of the team to the development of the project.

3% Marketing Wallet, This wallet will accumulate tokens as the crypto scales(5% yield) & will be utilised to market the coin.

Future Plans

1100010

While our focus is on developing strategic partnerships that will enhance our reach and create further trust in \$MTRX. We believe \$MTRX is only as strong as the community we build.

We will always welcome ideas and contributions from the community on the future of Redpill/\$MTRX.

We have our own ideas as a team, after all the Matrix was reloaded.

Red pill or blue pill you choose, find out how deep the rabbit hole goes...

I'm going to show them a world without you. A world without rules or controls, borders or boundaries. A world where anything is possible. Where we go from there is a choice I leave to you.
